

How to setup and use Race Monitor on your iPhone or Android Based phone

If you have not already installed Race Monitor on your phone download it from <http://www.race-monitor.com> Cost of the app is \$4.99

Race Monitor will allow you view the LAKC live timing feed in real time anywhere you have internet access on your phone.

With Race Monitor you can:

- View live timing information
- Sort racers by position or qualifying times
- Group racers by class

How to connect to the live feed when not at the track

1. Open the race monitor app on your phone
2. Tap the "Race Directory" button
3. In the race directory find LAKC and tap that race, it should say "LIVE" if we are live. (apx 8am to 6pm)
4. The timing page will populate with the current race

How to connect at the track using the wireless feed

1. Connect to the LAKC wireless network: LAKC
2. Enter the RMonitor IP address: 192.168.10.15
3. Enter the RMonitor port number: 50000
4. Tap the "Connect" button

Either of the above options will work at the track

To test Race Monitor after you download the app

1. Enter IP address: 216.241.166.28
2. Enter port number: 50000
3. Tap "Connect"
